RE: ALDI, Inc. Expansion and Renovation
East Spencer, NC

Dear Walter,

Throughout my career I have made it a practice to personally recognize members of the project team that have gone above and beyond expectations to make a project successful. On the ALDI, Inc. East Spencer, NC Expansion and Renovation project, Keith Berry was just such a person. The East Spencer project has been the first project that I have been fortunate enough to have Keith as a part of the team. His knowledge of the scope of work, ability to coordinate with other trades, resourcefulness in solving problems, quality of work, safety, and over-all work ethic have made it a pleasure to work with Keith. I hope to work with him on the next project as well.

Please pass along my appreciation internally at Republic Refrigeration as well as to Keith.

Sincerely,

AM King Construction Company, LLC

Jim D. Bradley
Superintendent
