Mr. Henry Saye
Republic Refrigeration
2890 Gray Fox Rd.
Monroe, NC 28110

March 5, 2002

Dear Mr. Saye,

I would like to express our great satisfaction with the recent ammonia refrigeration system expansion by Republic at the Coors Brewing Company Shenandoah, VA plant. We feel that we received excellent quality and workmanship on the whole job. It just looks good and works well. The welding, fitting, attention to detail, and good layout has all of us pleased. The startup was smooth to the point of lacking drama.

I have personally enjoyed working with Rodney Helms and Chuck Edwards. Besides being easy to work with, they have been very quick to point out issues that might affect function and to listen to what we need. The plant staff also have many good things to say about them and the project and have called the ammonia system expansion "outstanding."

We are glad to have had the opportunity to work with Republic Refrigeration. Please pass along our appreciation to your staff that worked on this project. We look forward to working together on future projects.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ed Trotter".
