Dear Mr. Saye,

I would like to recognize the excellent work being performed by Republic Refrigeration as part of the new Coors Brewing Company Golden Distribution Center Project. This is Coors' second opportunity to work with Republic and we are happy that another one of our facilities will be installed by your company.

Coors requires the highest quality from our contractors and suppliers and Republic has met our expectations throughout the design and construction phases of the project. We feel very confident that startup will go smooth because of your crew's attention to quality.

I have personally enjoyed working with Rodney Helms and Carter Sharp. They are a good team that work well together. Their team's morale is high. Both of them have shared their experience with us in order to improve the design. As a result Coors Brewing Company is obtaining an excellent system.

We are glad to have had the opportunity to work again with Republic Refrigeration. Please pass along our appreciation to your staff as they complete this project.

Sincerely,

A handwritten signature in black ink, appearing to read "Ed Trotter".
