To whom it may concern

Republic Refrigeration, Inc.

building

better

buildings

I confirm that I have dealt with Republic Refrigeration since 2004, during which time they have provided my business with excellent support in the areas of refrigeration engineering and site construction of refrigeration projects. The latest project Republic Refrigeration has completed for us is P & O Cold Logistics which is located at 502 N. Broadway, La Porte, TX. 77571. The project was completed on June 14th of 2005. The value of their portion of the project was \$1,983,180.00

I can confidently recommend Republic Refrigeration, as a solid and reliable Design & Build contractor, and experts in their field.

Yours faithfully

Primus Builders, Inc.
